

PRECIOUS OHIMAI OMOKHAIYE

FULL-STACK DEVELOPER / BACK-END ENGINEER

No.17 Shalom House, Awobo Estate, Igbogbo-Ikorodu, Lagos • +234-70-4678-7905
• pomokhaiye8@gmail.com

SUMMARY

Resourceful and proactive Back-End Engineer with over 5 years of experience delivering scalable backend systems, APIs, and web platforms using Python, Golang (basic), Node.js, and Laravel. Proven track record of driving technical efficiency, managing stakeholder expectations, and contributing to fast-paced, remote-first engineering teams. Strong grasp of GCP, GRPC, service reliability, and advanced system design patterns.

WORK EXPERIENCE

Full Stack Developer / Mobile Developer – CargolandFood Mar 2025 – June 2025

- Architected and deployed a logistics and food aggregation platform supporting dynamic vendor integration.
- Built and maintained backend services for tracking, inventory, and user roles using Node.js and Laravel.
- Collaborated with product teams to enhance user experiences across web and mobile interfaces.

Full Stack Developer – Qubicbox | Qubicweb | Digital Directory Sept. 2024 – Mar. 2025

- Independently designed, developed, and deployed all three platforms from the ground up — including architecture, backend systems, and frontend interfaces.
- Built RESTful APIs, authentication flows, and admin dashboards using Node.js, Laravel, React, and Next.js.
- Managed CI/CD deployments, cloud optimization, and post-launch performance tuning.

Technical Assistant / Software Developer (part-time) - E-Vast Sept. 2023 - Present Marketing Agency

- Integrate automation and analytics tools to streamline executive operations.
- Handle both professional and occasional personal administrative assignments.
- Resolve technical issues, providing consistent support to ensure project timelines and quality standards were met.
- Coordinate project deliverables, aligning with business timelines and budgets.

Executive Support & Web Developer - CCODEL Covenant University Feb 2022 - Oct. 2024

- Supported directors in e-learning projects by managing backend systems and ensuring content delivery efficiency.
- Improved platform performance and resolved technical issues promptly to avoid service disruptions.
- Collaborated remotely with academic leadership, ensuring alignment with institutional goals.
- Maintained backend infrastructure for e-learning platforms serving 10,000+ users.
- Reduced downtime by 40% through optimized backend processes and server maintenance.
- Supported director-level staff with timely reporting and digital project delivery.

PRECIOUS OHIMAI OMOKHAIYE

MOBILE DEVELOPER / FULL-STACK DEVELOPER

No.17 Shalom House, Awobo Estate, Igbogbo-Ikorodu, Lagos • +234-70-4678-7905
• pomokhaiye8@gmail.com

SUMMARY

Proactive and versatile Mobile App Engineer with hands-on experience building production-grade mobile apps using React Native, along with full-stack expertise in Node.js, Laravel, and Firebase. Adept at creating seamless cross-platform mobile experiences, integrating RESTful APIs, and optimizing app performance. Proven track record across logistics, food delivery, e-learning, and marketing platforms.

WORK EXPERIENCE

Full Stack Developer / Mobile Developer – CargolandFood Mar 2025 – June 2025

- Built and maintained a React Native app for food delivery and logistics, handling real-time data updates and in-app navigation.
- Built and maintained backend services for tracking, inventory, and user roles using Node.js and Laravel.
- Collaborated with product teams to enhance user experiences across web and mobile interfaces.

Full Stack Developer – Qubicbox | Qubicweb | Digital Directory Sept. 2024 – Mar. 2025

- Independently designed, developed, and deployed all three platforms from the ground up including architecture, backend systems, and frontend interfaces.
- Built RESTful APIs, authentication flows, and admin dashboards using Node.js, Laravel, React, and Next.js.
- Enhanced mobile user experience by optimizing interfaces for touch interactions and transitions.

Technical Assistant / Software Developer (part-time) - E-Vast Sept. 2023 - Present Marketing Agency

- Integrate automation and analytics tools to streamline executive operations.
- Handle both professional and occasional personal administrative assignments.
- Resolve technical issues, providing consistent support to ensure project timelines and quality standards were met.
- Coordinate project deliverables, aligning with business timelines and budgets.

Executive Support & Web Developer - CCODEL Covenant University Feb 2022 - Oct. 2024

- Supported directors in e-learning projects by managing backend systems and ensuring content delivery efficiency.
- Improved platform performance and resolved technical issues promptly to avoid service disruptions.
- Collaborated remotely with academic leadership, ensuring alignment with institutional goals.
- Maintained backend infrastructure for e-learning platforms serving 10,000+ users.
- Reduced downtime by 40% through optimized backend processes and server maintenance.
- Supported director-level staff with timely reporting and digital project delivery.

- Delivered internal backend systems for enterprise clients, focusing on compliance and reliability.
- Designed APIs for internal reporting and client data exchange using Laravel and Node.js.
- Facilitated technical collaboration across remote teams and ensured timely feature delivery.

EDUCATION

Bachelors of Engineering in Electrical / Electronics
Engineering
Covenant University

Sep 2019 - Sept 2024

ADDITIONAL INFORMATION

- **Languages & Frameworks:** Python, Golang (basic), PHP, Java, Node.js, Laravel, JavaScript, React, Next.js
 - **Cloud & DevOps:** Google Cloud Platform (GCP), Vercel, Git, Linux, CI/CD
 - **APIs & Integration:** RESTful APIs, Postman, GRPC/Protocol Buffers
 - **Tools & Systems:** MySQL, MongoDB, Firebase, NGINX, Docker (basic)
 - **Mobile & Cross-Platform:** React Native, Expo, Redux, React Navigation, Firebase
 - **Mobile DevOps:** Android builds, Play Store readiness, OTA updates (if Expo used)
 - **Testing & Debugging:** Flipper, Chrome DevTools for React Native, Postman
 - **Other:** UI/UX Collaboration, Agile/Scrum, Remote Teaming
 - **Other Qualifications :** *Most Resourceful Chaplaincy Member, Head Community Development CPC Covenant University, Work Study Supervisor Chaplaincy, etc*
-
